To Whom it may concern

On Monday, March 17th, Phil Hall put eight members of staff from this College through a 4 hour fire training course. We all enjoyed the course very much, he made us all aware of how much danger there is in the workplace that we were unaware of. He was firm with all of us (we were a bit excitable!) but put us all at our ease when it came to dealing with the fires.

We would really recommend Phil's company to instruct people about the danger of fire in the workplace.
